

**OnToCollege**  
*with John Baylor*

## **AP Physics 1 Test Prep**

for the May 8, 2018 AP Exam

**Three 2-hour sessions at Westside High School in Omaha**

Session #1 – Monday, April 30, 6:30-8:30 PM

Session #2 – Wednesday, May 2, 6:30-8:30 PM

Session #3 – Monday, May 7, 6:30-8:30 PM

Cost: \$99 for six hours of instruction plus prep manual

The *OnToCollege* AP Physics 1 Test Prep course will include a review of physics concepts, test-taking strategies, and a review of common errors that students make on the test. We will be using the book “Sterling 2018 AP Physics 1 Practice Questions” to practice multiple choice questions (included in the cost of the course). We will also review actual free-response questions from the last several AP Physics 1 exams.

### Why AP Test Prep?

- Unlike the ACT or SAT, which are offered multiple times per year, you only have one chance to ace your AP test
- Earn real college credit with a passing score
- A high score strengthens your college application

*Rob Mason will be teaching the AP Physics 1 Test Prep. Rob has a B.A. in Physics and a M.Ed. He has been teaching science for 26 years, more than half of that in AP and Advanced Physics.*
